Address: ariana ,tunisie

Fourth-year Computer Engineering student at TEK-UP 2023 with a Bachelor's degree in Information and Communication Technology from the Faculty of Science of Tunis (FST). Passionate about software development, programming, and solving complex technical challenges

PROFESSIONAL
EXPERIENCE

- Intern at Web Design Agency

June 2023 – August 2023

 - Developed a project management system using Laravel to streamline and optimize workflows within the agency.
 - Designed and implemented features for task assignment, team collaboration, and progress tracking.
 - Integrated user authentication and role-based access control to ensure secure project management.
 - Built an intuitive front-end interface using Blade templates, ensuring a seamless user experience.
 - Worked with the team to integrate email notifications for task updates and deadlines.
- Intern at Sagemcom

February 2023 – June 2023

 - Implemented an information system for log and event management: a solution aimed at improving the data structure of log files.
 - Designed and deployed an ELK (Elasticsearch, Logstash, Kibana) infrastructure for centralized log management on Linux servers.
 - Configured Logstash for log ingestion, Elasticsearch for storage, and Kibana for visualization.
 - Set up customized dashboards in Kibana to monitor key system metrics.
 - Performed maintenance and monitoring of Linux systems to ensure availability and performance.

EDUCATION

- Engineering Cycle at TEK-UP University

2023 – Present

 - Pursuing a degree in Computer Engineering as part of the engineering cycle at TEK-UP University, specializing in advanced computer science concepts, software development, and systems engineering.
 - Engaged in practical and theoretical coursework, including programming, algorithms, data structures, and network systems.
 - Participated in hands-on projects and internships, gaining experience in real-world applications of engineering principles.
 - Currently in the 4th year of study, combining evening courses with project work and research to deepen expertise in the field of computer engineering
- Faculty of Sciences of Manar

2020 – 2023

Bachelor’s Degree in Telecommunications
- Lycée Bouarada

2016 - 2020

Baccalaureate in Mathematics

CERTIFICATES

- Project: Intelligent Professional
Recommendation Platform | 2024

project : Hotel Management Project |2024
- certificat redhat | 2024

RHCSA

certificat Scrum| 2024

SFPC
